19 This bill creates a home retrofitting tax credit against the
20 individual income tax.

21 The bill lists numerous "home retrofitting" projects that
22 qualify for the credit which relate to providing accessibility
23 to a qualifying residential home. The bill defines "qualifying
24 residence" to mean the same as defined in section 163 of the
25 Internal Revenue Code which is owned by a person 50 years of
26 age or older. The bill defines "qualified person" to mean
27 a certified aging-in-place specialist or a universal design

30 actual costs of the home retrofitting project on a qualified
31 residence.

32 The bill limits the credit to \$30,000, in the aggregate,
33 during the lifetime of the taxpayer.

34 A credit provided in the bill in excess of tax liability is
35 not refundable but the excess for the tax year may be credited

1 to the tax liability for the following five years or until
2 depleted, whichever occurs first.

3 The department of revenue is required to develop a system
4 for the application, review, and authorization of tax credits
5 awarded pursuant to the bill and shall control the issuance of
6 all tax credit certificates.

7 The bill applies to tax years beginning on or after January
8 1, 2022.
